

Bison tube

Info & Tips

35mm
film canister

- All caches are **35mm film canisters or Bison tubes** covered with camouflage tape 
- Caches are within arm's reach for the average Scout. **None are above 7 feet.**
- Caches are **Never Buried** and are **Never Inside Buildings.**
- The Lat/Long coordinates will get you within about 20 feet of the cache.
- LOOK EVERYWHERE. Caches may be under, over, between, on top of, covered or disguised by other objects. It's a challenge!
- Use the "Hint" if needed.
- If you have trouble finding a cache think, "**Where would I hide a cache at this location?**"
- Each Cache contains a log sheet for you to sign. **Bring your own pencil.**
- Caches may contain stickers or other tiny souvenirs. Please take only ONE.
- **ALWAYS REPLACE THE CACHE EXACTLY AS YOU FOUND IT!** This includes re-covering with any natural cover that was concealing the cache when you found it.

• **Good Hunting!**
